

TCI Donating AMS Environment to Open Source Community

- ▶ **Proven:** Over 20 years in over 2500+ production chips in 100+ processes:
 - ▶ PLLs, 12Ghz digital PLL, CPU, DLL, A/D, PVT...
- ▶ **Modern & extensible:** Unifies design generation, a mixed-mode simulator, measurement, characterization, data analysis, layout, silicon tests
 - ▶ High productivity
 - ▶ Hierarchical cell based with directed placement and autoroute
- ▶ **Ready to build chips:** some logistics.. hope by year end
 - ▶ Cell provided for popular processes: Skywater, GF, some TSMC
